

FK02GYW Access Control Panel

with EU QR Code Scanner

Temperature Detection

Face Recognition

Fever Warning

Scan Code

Temperature detection
distance 0.5-1M,0.75M is best

Face recognition speed
≈200 ms

Recognition accuracy
± 0.3 °C

Face Temperature
Measuring

Face recognition
distance: 0.5-1.5M

Abnormal temperature
automatic warning

Face library capacity
30000 persons

7 inch ISP LCD screen
Resolution 1024*600

EU QR Code Scanner

Effectively contribute to safe and free movement
during the EU COVID-19 pandemic.

Face Recognition

Support data output and Management:
complete face capture, recognition, temperature records

0.5-1.5M

Face Recognition
Distance

0.5-1M

Temperature
Detection Distance

0.75M

Optimum Temperature
Detection Distance

Installation Method
